

V'ICI

LANGUAGE ACADEMY

discover a lifelong love of languages

Give your child the best possible start
with dedicated bilingual learning

Welcome to the VICI Language Academy

the perfect place to give your child a great start and a truly competitive advantage.

At VICI, we exist to help you give your child the very best chance in life.

And we take that role very seriously.

Yes, the Academy is incredibly fun, and a great social experience for your child, but it's also the very best place to come if you're truly serious about helping your child to be bilingual, and opening up all the opportunities that come with that.

Our physical Academy is based in Newbury, and we've got a thriving online centre; however you want your child to learn, we've got you covered.

The benefits of language learning:

If you're reading this, you're probably already aware that language learning is hugely beneficial for a child's development:

- Helps develop cognitive skills
- Encourages flexibility and creativity
- Stimulates thinking skills

And in a multicultural world, learning a language isn't just a way to pass the time after school – it's a ticket to more opportunity.

The UK needs to develop its citizens' competence in a wider range of languages and in far greater numbers in order to reap the economic and cultural benefit available to those who have these skills

Your child's learning options at VICI

The Academy started way back in 2008, and since then we've grown and expanded to coaching over 200 students every single week.

Our students learn in the best way for them – some come for **physical lessons** a number of times a week and attend monthly cultural and themed **language workshops**, others are exclusively online, with a good chunk in the middle doing a bit of both.

Thanks to our dedicated online learning platform, **online students** can experience the same quality of lessons, regardless of where they are in the world; while our state-of-the-art centre provides a fantastic learning environment for those who have physical lessons.

“Our boys are loving their language lessons and ask to come to Spanish class every day; thank you!”

Mr & Mrs Hughes, Newbury

Your package options

Since Arthur has been coming to learn French at VICI, he has so much more confidence in himself!

Jo-Amy Hopwood

**There's no one size fits all here at VICI.
All we're interested in is what's best for your child.**

That being said over the years we've gotten pretty good at recognising what suits our students best. A popular choice is our **Positive Start Programme**, which provides six months' membership of the academy, working out at just £15 per session.

We also offer **one-to-one packages** for children who want or need more dedicated focus and small private groups for parents looking for flexibility.

Wherever you're at, and whatever needs your child has, we'll bend over backwards to accommodate them – when you entrust part of your child's education to us, we'll do whatever is necessary to ensure it's a success.

"At The VICI Language Academy, learning a foreign language is not a school subject, it's a lifestyle."

Nathalie Danon
